

UR  
MEDICINE

FINGER LAKES  
HEALTH

UR Medicine Finger Lakes Health is committed to providing compassionate care to every member of our community, regardless of their ability to pay. It is this philosophy that guides us as a not-for-profit health care facility.

If you do not have health insurance, or think you may not be able to pay in full for your care provided by the hospital, we can help by providing financial assistance based on your income and needs. In addition, we may be able to help you obtain free or low-cost health insurance, or work with you to establish a manageable payment plan. Together, we will determine how you can best arrange to pay for your care.

The following list of services and individual providers employed by UR Medicine Finger Lakes Health at the time of your service are eligible for Financial Assistance. Patients may not apply for Financial Assistance for bills from any service that is **not** provided by the hospital and/or people directly in the hospital's employ. For example, if a patient is treated by a physician working at the hospital but who is not a salaried employee of the hospital, the physician may bill the patient separately for the physician's services.
